SUMMARY

B.Tech Computer Science student (AI/ML specialization) at Galgotias University with hands-on experience in machine learning, deep learning, NLP, and backend development. NVIDIA-certified in Deep Learning. Delivered 2 independent projects spanning Java and Python. Seeking to contribute technical skills to impactful AI/ML engineering roles.

EDUCATION

B.Tech — Computer Science & Engineering (AI/ML) Galgotias University, Greater Noida	CGPA: 7.95/10		2024 – 2028
Class XII — CBSE St. Mary's Convent Sr. Sec. School	82%		2022 – 2023
Class X — CBSE St. Mary's Convent Sr. Sec. School	94%		2020 – 2021

TECHNICAL SKILLS

Languages	Python, Java, C
Web	HTML, CSS, JavaScript
AI / ML	Machine Learning, Deep Learning, NLP, Generative AI
Databases	MySQL, SQL, JDBC
Tools	Git, GitHub, Linux, VS Code
Soft Skills	Teamwork, Communication, Analytical Thinking

PROJECTS

Hotel Management System Jan 2026 – Mar 2026

Tech Stack: Java • MySQL • JDBC • OOP • Git/GitHub

- Engineered a console-based app managing 50+ rooms and 200+ reservations, supporting the full booking lifecycle.
- Reduced manual booking errors by approximately 40% by implementing CRUD operations via JDBC and MySQL with input validation.
- Architected a normalized schema with 4 tables, cutting redundancy by 60% and improving query speed by approximately 35%.
- Eliminated connection leaks across 100+ test transactions using try-with-resources for SQL exception handling.

Student Grade Tracker (Mini Project) 2024

Tech Stack: Python • Pandas • Matplotlib • CSV

- Automated GPA calculation and performance reporting for 30+ students across 5 subjects, saving approximately 70% manual effort.
- Visualized semester-wise performance trends using Matplotlib bar and line charts for faculty decision-making.
- Streamlined data handling by integrating CSV-based storage with Pandas for fast import and export of student records.
- Introduced a subject-wise comparison feature that pinpointed underperforming areas across the entire student batch.

CERTIFICATIONS

- Fundamentals of Deep Learning — NVIDIA (2026)
- Short-Term Training Program — Galgotias University (2025)

ACTIVITIES & EXTRACURRICULARS

- Led backend development and database design in 2+ group assignments, coordinating deliverables across 4-member teams.
- Advanced self-learning in AI by completing 5+ courses on Python, machine learning, and data structures via Coursera and YouTube.
- Solved 500+ Data Structure and Algorithm problems across multiple coding platforms.
